HOROSCOPE

MARCH 13 - MARCH 19, 2025

ARIES (Mar. 21- April 20)

This week, you may feel a strong push to take control of a situation that has been lingering. A surprising piece of news could shift your perspective on a relationship or career decision. Stay assertive, but avoid unnecessary conflicts—patience will serve you well.

TAURUS (Apr. 21- May 21)

A financial or work-related matter may require extra attention, but a steady approach will lead to success. You might feel torn between responsibility and the need for relaxation—find a way to balance both. A conversation with a close friend could bring valuable insight.

GEMINI (May 22-June 21)

Your natural curiosity leads you toward an exciting new opportunity. A creative project or new connection could open unexpected doors—stay open-minded. Be mindful of overextending yourself, as you may need to slow down to recharge.

CANCER (June 22-July 22)

Emotional clarity is within reach as you work through past feelings or lingering doubts. A professional breakthrough is possible if you stay disciplined and proactive. Trust your intuition when navigating family or personal matters.

LEO (July 23-Aug 22)

A bold move could pay off in a big way, especially in your career or personal life. A spontaneous trip or new experience may bring unexpected joy. Be mindful of your energy levels—sometimes rest is the most productive thing you can do.

VIRGO (Aug. 23 -Sept. 23)

A financial or emotional investment may require careful consideration. You may feel a strong urge to declutter your life, both physically and mentally. Trust in your ability to make thoughtful, strategic decisions rather than rushing ahead.

LIBRA (Sept. 24-Oct. 23)

Relationships take center stage, with potential for exciting new connections or deepening existing bonds. A long-overdue conversation could provide clarity and peace of mind. Be honest about your needs, and don't be afraid to set boundaries.

SCORPIO (Oct. 24 - Nov. 22)

Productivity is high, making this a great time to tackle tasks you've been putting off. A change in your daily routine could lead to better mental or physical health. Stay focused on long-term goals rather than getting caught up in minor setbacks.

SAGITTARIUS (Nov. 23-Dec. 21)

Your adventurous side craves something fresh and exciting—follow that instinct. Romance or creative expression may bring joy and inspiration. Just be mindful of commitments and don't neglect important responsibilities.

CAPRICORN (Dec 22.- Jan. 20)

Home and family matters could require attention, but positive changes are on the horizon. A past issue may resurface, giving you a chance to finally resolve it. Focus on creating stability and emotional security in your personal life.

AQUARIUS (Jan. 21-Feb. 19)

New ideas flow effortlessly this week, making it a great time for brainstorming or creative work. A conversation with someone unexpected could offer a fresh perspective. Stay flexible, as plans may shift in surprising ways.

PISCES (Feb. 20-Mar. 20)

Financial planning or a work-related opportunity may take center stage. Your intuition is strong, helping you make smart decisions about money or personal matters. Don't be afraid to speak up and advocate for what you truly want.

NUTRITION, WEIGHT LOSS & FITNESS

OUR KIDNEYS

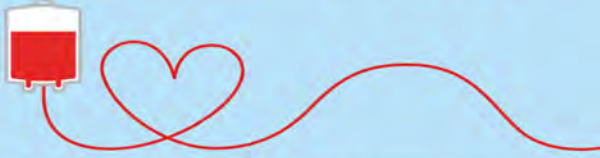

The kidneys love water foods, which all are fruits and veggies. Raw foods deliver what cooked food doesn't, and cooked foods will deliver what raw doesn't. Ideally, we aim for 50% cooked and 50% raw.

Water is essential internally, but water can also be used externally to enhance kidney function. Hot and cold sitz baths can be implemented to boost healing in the kidneys and the whole urinary system. This includes sitting in a hot tub for three minutes, then a cold tub for 30 seconds, repeating three times in a row. This can be done once twice daily if possible. Every treatment extends the effect of the previous treatment. Ideally, this is done for 30 days, then a break is taken.

FROM THE HEART OF ATLANTIC COUNTY MAGAZINE

St. Patrick's Day is about more than green beer, pinching those who forgot to wear green, and searching for gold coins. The Irish have many witty, snarky, and funny sayings and proverbs, and there's no better time to learn a few than during St. Patrick's Day. Whether you want to impress your friends at a St. Patrick's Day party, or just learn some for fun, check out the 15 Irish, St. Patrick's Day sayings we've compiled below.

"May your blessings outnumber the shamrocks that grow, And may trouble avoid you wherever you go." ~ Many people associate good luck with shamrocks and with the Irish. This St. Patrick's Day saying wishes the reader good luck and many blessings throughout their life and travels.

"Sláinte" (pronounced Slan-Tcha) ~ This word — meaning "health" or "good health" — is a traditional Irish Gaelic word used commonly throughout Ireland, but particularly on St. Patrick's Day. Why? Because people use it when toasting over their pints of beer!

"Everybody's Irish on St. Patrick's Day." ~ This famous saying explains the phenomenon that a vastly higher number of people celebrate the holiday of St. Patrick's Day than those who are actually Irish.

"Is fear an tsláinte ná na táinte" ("Health is better than wealth") ~ While many Irish phrases focus on gold coins and wealth around St. Patrick's Day, this phrase talks about how much more important one's health is. It is a commonly used phrase in English as well.

"If you're lucky enough to be Irish, you're lucky enough!" ~ This saying also celebrates Irish national pride during St. Patrick's Day, celebrating all those who come from Irish heritage. It also plays off of the idea of Irish luck.

"May your pockets be heavy and your heart be light, may good luck pursue you each morning and night." ~ This Irish proverb also plays of the common themes of St. Patrick's Day: gold and luck. The proverb wishes the reader wealth and good fortune throughout their life.

"A good laugh and a long sleep are the two best cures." ~ After a long night of drinking on St. Patrick's Day, this Irish phrase offers a suggestion for a cure to the fatigue or hangover one might have.

15 Irish St. Patrick's Day Sayings

"Wherever you go, whatever you do, may the luck of the Irish be there with you" ~ This Irish blessing also wishes the reader good luck, particularly on St. Patrick's Day when many people are out drinking and sometimes fighting.

"A drink precedes a story" ~ St. Patrick's Day is full of drinking, talking and storytelling. This phrase captures the idea that people are often more willing to share stories or more enthusiastically tell stories after they have been drinking.

"Aithníonn ciaróg ciaróg eile" ("It takes one to know one") ~ This phrase is fairly famous in English, however, it is also an Irish saying, similar to the phrase: "the pot calling the kettle black."

"Kiss me, I'm Irish" ~ Another very common phrase and often seen on shirts and other memorabilia in Ireland, this phrase captures the passion and vivacity of people who are Irish and who may be celebrating St. Patrick's Day.

"It is often that a person's mouth broke his nose" ~ This phrase also captures the raucousness of St. Patrick's Day and warns that a person often gets into a fight because of the things they say to someone else.

"What's the craic?" ~ Essentially meaning "What's up?", if you're spending St. Patrick's Day in Ireland, this phrase will come in handy as it is very common. The word "craic" is pronounced as "crack" so many tourists are often confused when hearing the phrase.

"Acting the maggot" ~ This common Irish phrase is used very commonly when someone is acting obnoxiously, especially after drinking during St. Patrick's Day.

"Is fearn Gaeilge briste, ná Béarla císte" ("Broken Irish is better than clever English") Only about 30% of Irish people speak Gaelic today, so there are many movements to revive the language. This phrase captures the national pride of St. Patrick's Day and uses it to encourage people to speak Gaelic.

The Boys and Girls Club of Atlantic City is beyond proud of our very own Sabrina Little, who just shattered the all-time scoring record at Holy Spirit High School! She surpassed milestones set by Jen Daniels (2001) and Chris Ford, etching her name in history as the school's top scorer.

Sabrina's journey began right here at the Club, where she and little brother spent summers and built lifelong memories. Her dedication, perseverance, and love for the game have led her to this incredible achievement, and we couldn't be more excited to celebrate this moment with her!

Sabrina, your Club family is cheering you on every step of the way!

Celebrating Sabrina Little

Sabrina never set out to break any records—she just wanted to play basketball in high school, kept putting in the work game after game.

She's humble, hardworking, and always striving to get better at whatever she puts her mind to. To see her reach this milestone is an unbelievable moment for our family.

Brian Little, Senior Director of Operations

Greater Atlantic City Concierge Association's Spotlight:
Cardinal Atlantic City

Submitted by: Judy Brenna, GACCA Communications Director
 Catering & Events Director, Blue Dog Hospitality Group

Name of venue: Cardinal Atlantic City

Where are you located? Cardinal is located at 201 S. New York Avenue in Atlantic City.

What are your hours of operation? We are open Wednesday through Saturday in the Dining Room and Lounge from 5-10 pm. Happy Hour is available at the bar 4-6 pm and then again from 9-10 pm.

What does your venue specialize in? Cardinal offers innovative American dishes and craft cocktails in a welcoming setting. Located in the Orange Loop neighborhood, just steps from the Atlantic City Boardwalk on New York Avenue. Owner and Executive Chef Michael Brennan presents familiar dishes for brunch, lunch, dinner, happy hour, catering, and private events. Enjoy our indoor dining room or outdoor patio for any occasion—whether it's a drink at the Lounge Bar, an intimate dinner, family time in the Garden, or your wedding day.

What is the current reason one MUST come to your venue? Join us on St Patrick's Day! Cardinal is teaming up with The Seed A Living Beer Project to host The Seed Beer Tasting & Irish Fiddle Concert on Monday, March 17, 2025, from 5-7pm. Fiddle concert is presented by the Linwood Fiddle Club. Beer Tasting by The Seed. Food will be available for purchase a la carte. Tickets are \$25 per person and proceeds will be going to The Absecon Lighthouse. It's a great experience that gives back!

What is the venue's greatest feature? Aside from The Garden, which is family-friendly outdoor dining and drinking experience, we would have to say our Brunch experience is a cut above. Offered every Saturday and Sunday from 10 am and 3 pm. Our menu offers traditional and elevated breakfast fare like Scrambled Eggs, Duck Confit Toast, and Lemon Ricotta Pancakes, as well as savory Brunch Sandwiches, Desserts, Mimosas, Build Your Own Bloody Marys, and so much more!

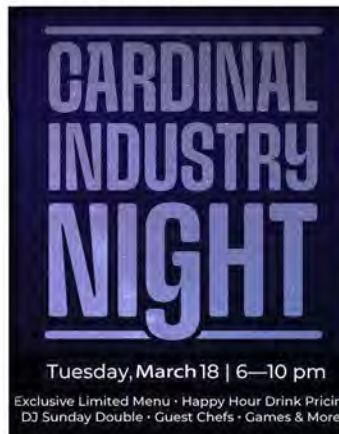

Tell us a little about your Chef? Chef Michael Brennan was born in Ocean City, NJ and raised in Absecon, NJ. Chef Brennan studied at the Culinary Institute of America in Hyde Park, NY, and then worked at restaurants in Philadelphia such as Le Bec Fin and LaCroix at The Rittenhouse Hotel. In 2016, he co-founded Cardinal Bistro in Ventnor, New Jersey, with his father, Thomas Brennan. Last year, they opened Cardinal in Atlantic City's Orange Loop neighborhood. Featured on Food Network's "Cooks vs Cons" and "Beat Bobby Flay," Brennan's dishes reflect his interest in innovative cuisine and hospitality. As Owner and Executive Chef of Cardinal, he focuses on serving artful food in a casual environment.

What are some other special reasons to come visit? Cardinal Industry Night on Tuesday, March 18th from 6-10pm is your invitation to unwind, indulge, and connect. Chef Michael Brennan and the Cardinal team are stepping out of the ordinary to serve up something special—an exclusive menu packed with late-night cravings, creative twists, and a few fan-favorite staples.

Expect surprise guest chefs bringing fresh flavors, a lively DJ set by Sunday Double, craft cocktails flowing all night, and games to keep the good times rolling. Whether you're off the clock or just out for a great night, everyone's welcome to join the fun. Special small plate menu includes Irish Nachos, Colcannon Croquettes, Irish Whiskey Wings, Corned Beef Tacos and more!

Please share any important information locals and visitors should know about: We host events for any mood! From casual to refined, we will provide event consultation from menu and beverage design to event aesthetic, and everything in between! We can host parties from 15 to 300 guests, with options for both Indoor & Outdoor Space, and intimate private rooms.

CATHERINE GETCHELL & Miles

Catherine Getchell is the director of the Office of Disability Resources at Carnegie Mellon University. She also is a hiker, a kayaker, a tandem bicyclist, and a member of three ensembles as a trumpet player!

The photo shows Catherine and her Seeing Eye dog, a yellow Labrador/golden retriever cross named Miles, standing next to the rushing waters of a river in Ohio's State Park in Pennsylvania.

Catherine was matched with her first Seeing Eye dog – Christine, a black Labrador retriever – in 1998, when she was an undergraduate at Yale University.

“Before my first Seeing Eye dog, I wasn’t the type of kid who would grab my cane and get on a bus and go to the mall by myself,” Catherine said. “I’d do that now, though! Going away to college and getting a Seeing Eye dog really helped me build that confidence.”

PPAWS - People & Puppies at Work for Sight

"MEET THE PACK!"

HAPPY WOMEN'S HISTORY MONTH!

Did you know that without Dorothy Harrison Eustis, a woman of remarkable vision and generosity, The Seeing Eye—and indeed the entire service dog movement—may never have started?

Dorothy, the daughter of a wealthy businessman from Philadelphia, later moved to Switzerland, where she began breeding and training German shepherds for police and military use. During a trip to Germany, Dorothy witnessed German shepherds being trained for another purpose—guiding military veterans who had been blinded in World War I. She was so impressed by what she had seen that she wrote an article about it for the Saturday Evening Post.

"It was as though a complete transformation had taken place before my eyes," she wrote in the article. "One moment, it was an uncertain, shuffling blind man, tapping with a cane; the next, it was an assured person, with his dog firmly in hand and his head up, who walked toward us quickly and firmly, giving his orders in a low confident voice. To think that one small dog could stand for so much in the life of a human being, not only in his usual role of companion but as his eyes, sword, and shield and buckler!"

In response to that article, Dorothy received letters from people who were blind asking for guide dogs. One stood out from a college student named Morris Frank. Dorothy invited him to Switzerland to learn how to work with and care for a German shepherd. From that partnership, The Seeing Eye was born. From that wellspring came guide dog schools around the world, as well as service dogs trained for other purposes!

Photo Description: A black and white archival photo of The Seeing Eye's co-founder Dorothy Harrison Eustis holding the leashes of the three German shepherds sitting and standing before her.

PPAWS (People & Puppies at Work for Sight) is a dedicated group of local families from Atlantic and Cape May Counties, which raise these amazing puppies for The Seeing Eye. Until a Seeing Eye dog is ready for training, he or she lives with a puppy raising or foster family that gives the dog love, gentle guidance, and consistent care. These volunteers nurture their puppy to accomplish its special destiny.

If you are interested in raising a puppy for The Seeing Eye, call Peter at (609)804-8774 or visit seeingeye.org/raise for info.

Pi Day is on March 14, and any day that combines fun, education, and pie is a day worth celebrating! Pi, also known by the Greek letter “ π ,” is a constant value used in math that represents the ratio of a circumference of a circle to its diameter, which is just about 3.14...15...9265359... (and so on). Not only that, but the fourteenth of March is also Albert Einstein’s birthday, so all together it’s nothing short of a mathematician’s delight.

History of Pi Day

To learn about pi, we need to go back a few thousand years and learn about this elusive number. The value of pi was first calculated by Archimedes of Syracuse (287–212 BC), one of the greatest mathematicians of the ancient world.

However, it was first baptized with the Greek letter as its name when William Oughtred called it as such in his works dating back to 1647, later embraced by the scientific community when Leonhard Euler used the symbol in 1737.

But how did Pi Day end up in a country-wide phenomenon? For that, we need to travel to the Exploratorium in 1988 San Francisco, where it was thought up by physicist Larry Shaw.

Shaw linked March 14 with the first digits of pi (3.14) in order to organize a special day to bond the Exploratorium staff together, where he offered fruit pies and tea to everyone starting at 1:59 pm, the following three digits of the value. A few years later, after Larry’s daughter, Sara, remarked that the special date was also the birthday of Albert Einstein, they started celebrating the life of the world-famous scientist.

Pi Day became an annual Exploratorium tradition that still goes on today, and it didn’t take long for the idea to grow exponentially, hitting a peak on March 12, 2009, when the U.S. Congress declared it a national holiday.

Now, celebrated by math geeks all around the circumference of the world, Pi Day became a pop culture phenomenon, with several places partaking in the activities, antics, observations and all the pie eating they can.

Traditions of the day

Pi Day gives math enthusiasts the opportunity to celebrate their love for numbers and the enigma that is the infinite pi.

Since 1988, the day has been celebrated at the San Francisco Exploratorium. The first celebration was organized by Larry Shaw, who worked as a physicist at the center. The staff participated by marching around the exploratorium and consuming fruit pies. This tradition has lived on since. Math lovers talk about math, host get-togethers, and have pi recital competitions. In schools, teachers arrange scavenger hunts, pie bake sales, and even Pi Day workouts to stimulate more interest in learning and practicing mathematics. Those folks who work in food marketing also love to get involved, so keep your eyes peeled for some discounts, deals, and freebies on pies, it’s going to be an extra tasty day.

By the Numbers

14th – of March is also Albert Einstein’s birthday

31.4 million – the world record held by Emma Haruka Iwao for calculating the most accurate value of pi.

4 – the number of months it took Emma Haruka Iwao to calculate the most accurate value of pi.

70,000 – the number of decimal places of pi memorized by Rajveer Meena in 2015.

10 – the number of hours it took Rajveer Meena to make the world record.

3.125 – the original number used for pi by the Babylonians.

22.4 trillion – the number of digits calculated by Swiss scientist Peter Trueb, using a computer.

24 – the number of hard drives on the computer used by Peter Trueb for calculating pi.

700,000 – the number of years it will take to recite the 22 trillion digits of pi.

15,000 – the number of digits of pi memorized by Mark Umile in the U.S.

Pi Day Activities

- Enjoy pie of course - Pi is a homophone of pie: the 2 words are pronounced similarly, but are spelled differently and mean different things. Celebrate Pi Day by eating lots of pie! Pizza, cherry, apple, you name it!
- Throw a potluck party - Everyone loves to show off their family pie recipe. Make it a potluck and everyone will be inclined to bring their favorite pie to Pi Day, whether it’s a pizza pie, a pot pie, a savory pie, or a sweet pie. Make a playlist that features songs like “I Like Pie, I Like Cake” and “American Pie.”
- Try making a new pie - Ever tried to make a pie before? Now’s your chance to bake your very own. Not into the sweet stuff? Don’t worry, there are various savory pie recipes out there so that everyone can enjoy the warm buttery flakiness that comes with a fresh baked pie.

5 Facts About Pi

1. People compete in memorizing it - Rajveer Meena has the record for memorizing the most decimal places of pi at 70,000.
2. It’s used as stress tests for computers - Computing pi is a kind of “digital cardiogram” for computers.
3. A Givenchy men’s cologne is named pi - So you can smell like pi too if you are the intellectual and visionary kind.
4. It has other names - Pi can also be named “Archimedes’ constant,” or “Ludolph’s number.”
5. It has been used by heroes - Spock foils the evil computer by having it calculate pi’s value in Star Trek’s episode “Wolf in the Fold”

Why We Love Pi Day

- Pi is infinitely cool - Pi (π) is the ratio of a circle’s circumference to its diameter — and amazingly for all circles of any size, pi will always be the same. Pi is an “irrational number,” meaning its exact value is completely unknown. Scientists have calculated billions of digits starting with 3.14159265358979323... but no recognizable pattern ever emerges. We could continue on and on until infinity and we’d still have no idea what digit might emerge next.
- Pi sounds like pie - If you are a nerd that likes pies this holiday is pretty much the best combination of the most interesting things in life: pie and mathematics. And of course that means that in order to celebrate abstract mathematical items that are somewhat irrational the obvious solution is to incorporate pie into the holiday.
- Pi links mathematics to the real world - Maybe when you were in math class, you stared off into space wondering why on earth ‘logs’ or ‘proofs’ mattered so much. Pi is the answer, well at least, one of the things that links math back to real world uses. Because pi is linked to circles it is also linked to cycles, things like calculating waves, ebb and flow, the oceans tides, electromagnetic waves and much more. In addition, many natural world phenomena can also be calculated with pi — like the shape of rivers, the disc of the sun, the spiral of DNA and even the pupil of an eye.
